

~~SECRET~~

DIARY NOTES

25 September 1959

DD/S

1. I discussed with the Director the Technical Services Staff installation in the new Bureau of Standards building. He is going over to see the Secretary of Commerce at 10:45 a.m. on Monday morning and [REDACTED] and I will accompany him. H

25X1A9a

2. Dick Bissell and I met with Bob Macy and Bill Schaub, Bureau of the Budget, to discuss the funding of Project [REDACTED] for Fiscal Year 1961. (See Memorandum For The Record dated 28 September 1959.) 25X1A2g

3. Dick Bissell, General Cabell, Mr. Dulles and I met with Messrs. Beckett, Macy and Schaub, Bureau of the Budget, to discuss a project that the Bureau is undertaking which involves the cost of communications in the Government and also the cost of intelligence. No definite conclusions or decisions were reached. (See Memorandum For The Record dated 29 September 1959.)

4. I talked to the Director about our problems with the General Accounting Office and he indicated he thought that he would go over and call on Mr. Campbell rather than write him a letter. I, therefore, returned Mr. Samuelson's call and told him I thought that we should not proceed further until after the Director had had a chat with Mr. Campbell. (See Memorandum For The Record dated 28 September 1959.) H

25X1A9a

5. [REDACTED] telephoned to say that he had seen Dick Bissell who was interested in the possibility of using him in a deep cover capacity. Dick wants to give further thought to the matter, however, and will let Joe know something later. I told Joe that this was all right with me and that we would string along with whatever decision is made when he returned from the [REDACTED]
